The grievance procedure outlined above will therefore be conducted in a conversational non-courtroom atmosphere with emphasis on full discovery of all the relevant facts.
- 4.11. WCRA has strict policies prohibiting the use of animal prods of any type (to include, but not limited to, sharp instruments, hotshots, other electric shocking devices, within the confines of the WCRA Rodeo grounds prior to, during or after any WCRA Rodeo performance.  - 4.12.4.2.1. In the Team Roping the Header will call for the animal.
 - 4.12.4.3. A neck rope that is part of the approved barrier system will be attached to animal to release the barrier pin to start the time.

If an athlete is unable to get their horse to properly back in the box or the horse is acting up causing the athlete to not be able to call for the animal in a timely manner and the animal is standing, the athlete will be asked to get on another horse. Once upon another horse, if animal is standing, the athlete will have up to 60 seconds to compete or will be given a no-time.
- 4.12.6. Animal gets out
 - 4.12.6.1. Contestant will compete on animal drawn for him unless ground rules state he competes on the extra animal.
 - 4.12.6.2. If animal gets out of arena, the field judge will drop his flag and time will be stopped and recorded. Contestant will get the animal back lap and tap with the time added which was taken when the stock left the arena plus any penalties.
- 4.12.7. Livestock:**

4.13. Additional discipline specific competition guidelines are listed below and/or in the event ground rules.

5. INSTANT REPLAY RULING CHALLENGE (IRRC)

- 5.1. **INSTANT REPLAY RULING CHALLENGE:** These rules and guidelines may be amended and revised from time to time based on the logistics of implementation, effects on TV programming, delays to events, and other practical logistics learned as these rules and procedures are implemented.
 - 5.1.1. Instant replay is a useful device to allow Judges to view a ride from several different angles and with slow motion. Where available, super slow motion may also be a useful tool.
 - 5.1.2. WCRA will designate a Lead Judge as an Instant Replay Judge.
 - 5.1.3. The athlete, any competition official or a WCRA Competition Committee member may call for an IRRC after a ruling is made.
 - 5.1.3.1. In the Bull Riding discipline, per PBR Rules – Other Contestants may instigate an IRRC on rides of others also, by sounding the horn within the 30 second time limit after the completion of a ride. A Contestant sounding the horn must immediately make it known that he is the one requesting an IRRC on another Contestant by waving his arms and pointing to himself. If that is not done, or if it is not clear who requested the IRRC, no IRRC will be effectuated as determined by any Judge.
 - 5.1.3.2. If a Contestant calls for an Instant Replay Ruling Challenge (IRRC) for his own ride, and if the Instant Replay Judge upholds the original ruling, that Contestant will be charged \$500 for calling for the IRRC.
 - 5.1.3.3. Reviewable calls or actions available to athletes are listed with these Competition Rules and may include variations in the event specific Ground Rules under each discipline.
 - 5.1.3.4. Certain reviewable calls or actions are predicated by the athlete declaring themselves at the time of the alleged action. The definition of declaring is the athlete immediately notifies the competition officials and ceases their competition run. If an athlete notifies the official of a declaration but continues to make their competition ride/run the declaration will be voided.
 - 5.1.4. An athlete may call for an IRRC on their own ride/run only immediately after their ride, but not after they leave the arena. They may do so by throwing an IRRC flag, to be located at both athlete out-gates, timed event chutes or perhaps elsewhere. The athlete will have 30 seconds to throw the flag. If there is no clock, until the judge's stopwatch reaches 30 seconds after the completion of a ride. If an athlete is injured and is reasonably unable to get to the IRRC flag in time, the athlete may signal a judge for an IRRC by a motion. If there is no flag at an event, it shall be the athlete's sole responsibility to alert the judges with the appropriate motion and confirmation for an IRRC.
 - 5.1.5. Other athletes may instigate an IRRC on rides /runs of other athletes within their same discipline also, by throwing the flag within the 30 second time limit after the completion of a ride. An athlete that throws the flag must immediately make it known that they are the one requesting an IRRC on another athlete by identifying their self to the competition officials. If that is not done, or if it is not clear who requested the IRRC, no IRRC will be effectuated as determined by any Judge.
 - 5.1.6. If it is deemed that an athlete has called for an IRRC for their own ride/run or to challenge the ride/run of another athlete within their discipline is a flagrant misuse of the IRRC, and the Instant Replay Judge upholds the original ruling, that athlete will be charged \$500 for calling for the IRRC.
 - 5.1.7. Additional Bull Riding discipline IRRC rules per the PBR rulebook
 - 5.1.7.1. **TOUCHING BULL, EQUIPMENT OR PERSON WITH FREE HAND AND OR ARM AND OR EXTENSION:** Touching bull, equipment, or person with free hand, and/or arm, and/or extension will be automatically reviewed. When reviewing a disqualification for touching the bull, if the replay judge cannot find conclusive evidence that the athlete touched the bull using all available angles, the athlete will not be disqualified for touching the bull.

5.1.7.2. Scores are not subject to an IRRC. Only challenges pertaining to reaching 8 seconds (or not), disqualifications (or not) pertaining to slapping or touching the bull with free hand or arm, fouls, or catching spurs in bull rope or knots are matters that are subject to an IRRC. The Field Judge that is the official start time may ask for a review of the start time of the ride if he feels there was an error, in which case the Replay Judge would need to time the ride in real time with a handheld stopwatch. This is the only time where a start time can be reviewed.

5.1.7.3. If an athlete is disqualified for excessive time in the chute, but the chute was opened and the athlete completed an 8 second ride, that ride shall be subject to automatic video review

6. BARREL RACING: GENERAL RULES

- 6.1. WCRA does not have a gender restriction on the Barrel Racing discipline at events it produces. If a WCRA event is produced or co-produced by a third-party promoter that has gender specific ground rules, those ground rules would supersede these rules.
- 6.2. The barrel pattern consists of one right turn and 2 left turns, or one left turn and 2 right turns.
- 6.3. Barrel Pattern: when the arena allows the pattern should be set as a standard, which is 90 feet between the 1st and 2nd barrel, 105 feet to the 3rd barrel.
- 6.4. Breaking the pattern will result in a no time.
- 6.5. Intentionally running out of order will result in a no time.
- 6.6. Athlete must be mounted when they cross the electric timer line to start and stop the competition time. If an athlete is dismounted, for any reason, during the competition run they will receive a no time.
- 6.7. In a small arena the 1st and 2nd barrels should be no closer than 18 feet off the fence. The 3rd barrel should be no closer than 25 feet off the fence.
- 6.8. When in a smaller arena the 3rd barrel should be no further than 20 feet more than the distance between the 1st and 2nd barrel.
- 6.9. The pattern should always be set square with alleyway or entry gate. It should be the same distance to the first barrel whether starting to the right or left barrel. If this cannot be done the WCRA is to be notified.
- 6.10. Once the barrel pattern is set it is to remain that way throughout the entire rodeo.
- 6.11. The pattern is to be set with stakes that will stay in the ground throughout the entire rodeo using rope or chain coming out of the ground.
- 6.12. When an arena has overhead lasers or permanent markers the judge is to use those markers and measure the distance and post the measurements at the office, if they meet WCRA specifications.
- 6.13. Score Line will be 60 feet unless the arena does not allow.
- 6.14. If the gate is open or closed for the first athlete to run, it will remain that way for the entire rodeo.
- 6.15. Athletes may have one helper, but helper may not step inside the arena and must be in full dress code.

6.16. Competition procedure

- 6.16.1. When arena is cleared for next competition, athlete must be ready when called upon. If the athlete is not ready when called upon, the athlete will be given a no time.
- 6.16.2. Athlete will receive a 5 second penalty for each barrel knocked down.
- 6.16.3. Barrel must hit the ground before the athlete crosses the timer.
- 6.16.4. Athlete may touch barrels or set them back up with their hands while running.
- 6.16.5. Tractor Drag/Hand Rake
- 6.16.5.1. Refer to event specific ground rules for the variance on drag and hand raking.

6.17. JUDGE'S REQUIREMENTS

- 6.17.1. The judges are to set all barrel patterns using WCRA rules.
- 6.17.2. Judges should check, measure and powder barrel stakes before each performance.
- 6.17.3. The barrel must be set where the stake is in the center of the barrel.
- 6.17.4. There will be two (2) electronic eyes used for the barrel race. It will be the judge's responsibility to check the timers before any performance and slack. A flagger and a stopwatch will be used as a backup. Two timers will be used.
 - 6.17.4.1. Farmtek Rodeo Timing System is the preferred timing equipment, but other equipment may be used as provided by the event timing & scoring provider.
- 6.17.5. If the primary timing system fails on one more than half of the go round of competition, all times for that performance of competition will default to the backup handheld stopwatches.

6.18. SAFETY REQUIREMENTS

- 6.18.1. The alleyway must be 10 feet wide and 12 feet high and must be a dirt floor free of people and obstructions.

- 6.18.2. All crossbars are to be fully covered with no large humps in alley.
- 6.18.3. Barrels must be 55-gallon metal drums.
- 6.18.4. Both ends must be enclosed and be brightly colored and not blend in with the color of the banners or the fence. The graphics on the barrels can be changed.
- 6.18.5. The barrels must be the same three barrels for the entire event unless approved by the WCRA.
- 6.18.6. When running back into a short alley or roping box, there has to be a bright banner or some type of padding for the safety of the horse and athlete. Also, any sharp curves should be padded.
- 6.18.7. In a closed gate situation, the stopping room should be no less than 45 feet. More stopping room is always encouraged and up to 60 feet is preferred.

6.19. Possible challenges for replay.

- 6.19.1. Question on whether a barrel was knocked over before the athlete crossed the timer line

Contestants agree to voluntarily submit to an inspection at any time requested.

9.11.4. If a bull is cut (as described below) from what is reasonably believed to be a result of a Rowel, there will be no consequence to the contestant if he was using one of the “unaltered” PBR approved and supplied Rowels (but only if the rowel is not altered in any way). If the PBR approved Rowel is deemed to be altered in any way, the rider will immediately be disqualified, all scores from the event will be removed, and no money, placement, or points will be awarded to that rider in the event. The first offense will result in a \$10,000 fine for the first occurrence. The second offense will be a \$20,000 fine and a four (4) event suspension. 9.11.6.2. **FINES:** If a fine is issued, it will be issued in writing by personal delivery, certified letter, Federal Express or similar service. The contestant shall have 30 days to pay the fine from the date of the letter. After the 30 days, they will not be eligible to ride until the fine is paid. All fines assessed will be collected by PBR and then will be paid to the owner of the bull that was injured.

9.11.7. **PULLING RIDER'S ROPE.** No more than two (2) persons may be used to pull the riders rope, one of which is the rider. Of those two (2) persons only three (3) hands may be used.

9.11.7.1. Bull Ropes should be first placed on the bull in the loading alley. The rope should be tied off in a position where the bull is still comfortable, and the rope is not tight. Any rider found having tied his rope off to a position where the bull is uncomfortable and cannot breathe freely will receive a fine of \$5,000 for the first offense. The second offense will result in a \$10,000 fine and the third will result in a \$20,000 fine with a minimum suspension of 1 year from PBR competition. Reinstatement is subject to the Competition Committee approval after 1 year.

9.11.7.2. Riders will be instructed by the chute boss when it is time to get on their bull. Riders are expected to wait until the chute boss gives instruction before mounting their bull.

9.11.7.3. Once a rider has mounted his bull, he is allowed to pull the rope only tight enough to properly warm up the rosin and only one person may be used to pull the riders rope at this time. Any rider pulling the rope tighter than necessary at any time prior to instruction from the chute boss that it is his turn to ride and pulling his wrap will be given one warning. If the rider does not follow instructions to loosen the rope immediately, they will be subject to a \$5,000 fine for the first offense. The second offense will result in a \$10,000 fine, and the third offense will result in a \$20,000 fine with a minimum suspension of 1 year from PBR Competition. Reinstatement of the rider is subject to Competition Committee approval after 1 year.

9.11.8. **DISQUALIFICATION OF CONTESTANT.** Any of the following shall disqualify a Contestant:

9.11.8.1. **BUCK OFF:** Riders riding hand loses contact with any part of the bull rope before 8 seconds, or if the rider loses leg contact with the bull and any part of the riders' body touches the ground before 8 seconds.

- 9.11.8.2. **SLAP:** Defined as touching the bull, the riders' equipment, or himself with the free hand, free arm, or extension thereof.
- 9.11.8.2.1. If a rider is deemed to have slapped any part of the bull other than the horn or tail under any circumstance prior to the 8 second buzzer, the rider will be immediately disqualified regardless of whether the clock was stopped by a judge. There are no circumstances in which a rider has touched any part of a bull (other than horn or tail) with his free hand, arm, or extension thereof that will not result in disqualification.
- 9.11.8.2.2. If a rider is deemed to have slapped the bull by making contact with the horn or tail, the judge shall use his/her discretion to determine if the slap warrants a disqualification. In the event that the rider is in a position of complete control (body, free hand and arm inertia are in full control of the rider at the time of the slap) and the movement of the bull creates contact between the bull's horn or tail with the free hand, arm, or extension thereof, the judge may deem that the slap did not warrant a disqualification at his/her discretion.
- 9.11.8.2.3. If it's deemed that the rider was not in a controlled position (body, free hand and arm inertia were not in control of the rider at the time of the slap), and the movement of the bull creates contact between the bull's horn or tail with the free hand, arm, or extension thereof, the judge will deem a slap, which warrants disqualification.
- 9.11.8.3. **UNAPPROVED ROWEL:** Using any unapproved rowels or approved rowels that are altered in any way.
- 9.11.8.4. **UNAPPROVED BULL ROPE:** Using a bull rope not approved by PBR, including not having a bell on the bull rope when bull leaves the chute entering the arena, or the rope contains a foreign substance on the wear strip as defined above.
- 9.11.8.5. **CATCHING KNOTS:** Intentionally leaving the chute with spurs hooked or lodged in the bull rope. (For clarification, in addition to the judges' discretion, it shall be considered intentional if a rider's spurs are hooked or lodged in the bull rope when the rider calls for the gate.)
- 9.11.8.6. **DELAY OF EVENT:** When a contestant has been advised he is next to go and is not prepared as determined by PBR judges and official personnel, such as not being in position above the bull with his glove on when the previous bull leaves the arena.
- 9.11.8.7. **IMPROPER SAFETY EQUIPMENT:** Rider competes without required safety vest or helmet (see helmet requirements).
- 9.11.8.8. **EXCESSIVE TIME IN THE CHUTE:** Contestants taking too long in the chute before calling for the bull may be disqualified, fined, and/or suspended at the discretion of the judges and PBR personnel.
- 9.11.8.8.1. In the event that a judge and or PBR official determines that a rider is taking excessive time in the chute, the judge will provide a verbal warning to the rider and place him "On the Clock." The Member will have 30 seconds from the time of the verbal warning to call for the bull. In the event that the Member does not call for the bull in the 30 seconds allotted, the Member will be disqualified. Any and all disqualifications are at the sole discretion of PBR judges and officials.
- 9.11.8.8.2. If there is an in-arena time clock triggered by the judge, the clock will be the official clock used to determine whether the Member will be disqualified. In the event that no in-arena time clock exists, the judge will use a stopwatch.
- 9.11.8.8.3. A rider who is disqualified for Excessive Time in the Chute will be fined \$2000 for the first offense and the fine will double with each subsequent offense within the current season. \$1000 of this fine will be awarded to the Stock Contractor in each offense. After the third offense in a season the rider will be indefinitely suspended until all fines are paid.
- 9.11.8.8.4. In the event that a Member is placed "On the Clock" and chooses to re-pull his bull rope, they must do so and call for the bull within the :30 seconds allotted, or they will be disqualified in accordance with the Excessive Time in the Chute rule.
- 9.11.8.8.5. If a rider is believed to be disqualified for excessive time in the chute, but the chute was opened, and the rider completed an 8 second ride, that ride shall be subject to automatic video review to verify if the rider called for the bull before the 30 second chute clock expired or not.
- 9.11.8.8.6. In the event that a rider is placed on the clock, subsequently disqualified, and is deemed by a PBR judge to have failed to make an "honest effort" to get out on his bull the

rider will be immediately fined \$5000 and suspended 5 events. For the second offense in a season the rider will be fined \$10,000 and suspended 10 events. This suspension includes all tours and finals events. If the rider does not make an honest effort to get out on his bull a third time the competition committee will review and decide on appropriate disciplinary action prior to the following event. Disciplinary action may include, but is not limited to, an indefinite suspension or the revoking of the riders PBR membership. Each infraction of this rule carries over to later seasons and penalties increase as described above through a rider's career with the PBR.

- 9.11.8.8.7. If this suspension is applied near the end of a season and there are not enough events to fulfill the current suspension that suspension will carry over into the following season. If the rider is currently riding on guaranteed events and it is at the end of the season those guaranteed events will not carry over into the following season.
- 9.11.8.8.8. Not making an honest effort to get out on your bull is not limited to actions in the chute, if a rider is not on the chute with his equipment in place and ready to mount when he is called and the PBR Judge determines this was a deliberate action in order to not get out on his bull this rule and its penalties will apply.
- 9.11.8.8.9. If a rider is already unable to compete in the next event for any other reason (such as a doctor's restriction) the suspension will carry over to the next event the rider would normally be eligible for.
- 9.11.8.9. **BULL MISTREATMENT BY A RIDER:** If the judge determines, in his sole discretion, that a rider is mistreating the bull in the chute in any way, the judge may disqualify that bull rider without warning. Such disqualification is not subject to any time constraints or "On the Clock" warning.
- 9.11.9. **Bull Riding Judges**
 - 9.11.9.1.1. **Changing Judges:** Event judges may not be changed during the course of an event with the exception of illness or by request of PBR Officials.
 - 9.11.9.1.2. **Selection:** Event judging staff at Unleash The Beast, Velocity, & PBR Touring Pro Division Events must be selected by PBR from an approved judges list submitted annually to PBR headquarters by the PBR's Competition Executive Committee.
 - 9.11.9.1.3. **Scores:** Scores will be totaled by both judges, verified by the event secretary, and posted after each performance.
 - 9.11.9.1.4. **Turnouts:** Judges will indicate on the judge's sheets that a Member has turned out. They then draw a line thru the riders' name and print the alternate riders name above the original rider.
 - 9.11.9.1.5. **Judges Stop Watches**
 - 9.11.9.1.5.1. The judge should stop his watch upon disqualification or the horn sounds, whichever comes first. If the horn is short of eight seconds, judges must go with the horn.
 - 9.11.9.1.5.2. **Judge's Decision is Final:** Judges have the authority to have interfering individuals removed.
 - 9.11.9.1.5.3. **Third Judge:** The Back Judge behind the chute at any PBR Event scores the bull, then a total score of the ride. Example: 20-rider 20- bull equals 80-point ride. The back judge shall be responsible for running the prevailing stopwatch, making sure there are no hot shots, watching for fouls, intent to cheat, and working with both contestants and contractors to keep the re-ride order straight.
 - 9.11.9.1.5.4. **Standard Pay:** Consult the PBR Headquarters; pay scale determined at PBR's Competition Executive Committee's discretion.
 - 9.11.9.1.5.5. **Judge's Sheets:** Judges must sign and date their respective judge's sheet. Judges must be descriptive about turn outs, visible injury, and doctor releases. Judges must record buck off times and mark the bull.
- 9.11.10. **Bull Riding Re-Rides**
 - 9.11.10.1. **AWARDING RE-RIDE OPTIONS:** Re-rides will be awarded at the discretion of the judges in circumstances in which the rider was deemed to be clearly fouled by the bull, an object in the arena, or by the failure of stock contractors' equipment. In no event will a rider be awarded a re-ride option in the event they are bucked off (clock has stopped) or the rider has been

disqualified for any other reason prior to the foul occurring. Specifically, re-rides may be awarded by the judges in circumstances such as the following:

- 9.11.10.1.1. **Premature Chute Gate Opening:** A Back Judge may award a re-ride at his/her discretion in the event that the gate opens before the rider calls or nods for the gate due to gate man error, or gate latch failure. At a Unleash The Beast event this will result in an automatic review.
- 9.11.10.1.2. **Bull Stops Bucking:** A judge may award a re-ride at his/her discretion in the event that a bull stops bucking (comes to a complete stop) at any point during the 8 second ride if such a stoppage resulted in an inferior bull performance that negatively affected the bull score. The rider must maintain control in a qualified ride up to the point at which the stoppage occurs in order to receive a re-ride. Any violation of PBR rules that would otherwise result in a non-qualified ride by the rider prior to the stoppage will negate the opportunity for a re-ride.
- 9.11.10.1.3. **Bull Fouls Rider:** A judge may award a re-ride at his/her discretion in the event that a bull fouls a rider at any point during the 8 second ride if such foul is deemed to have directly and clearly contributed to a buck-off or disqualification. Fouls by the bull shall include:
 - 9.11.10.1.4. **Rider Contact with Objects:** A judge may award a re-ride any time that the bull bucks in such a manner that causes a rider to make direct and substantial contact with the chute, chute gate, arena fencing, or another object in the arena which directly leads to a buck-off or other action that disqualifies the rider.
 - 9.11.10.1.5. **Bull Contact with Objects:** A judge may award a re-ride any time that a bull "hips" himself (makes contact with the bucking chute or gate). If such action resulted in a clear, definitive and substantial change in the inertia of the bull's movement which directly leads to a buck-off or other action that disqualifies the rider. Judges will use their discretion to determine if the change in inertia was substantial by evaluating whether the bulls motion stopped completely and abruptly, and/or was followed by an immediate and unnatural change in the direction the bull was moving at the time contact was made with the bucking chute. If the change in the bull's inertia was not deemed by the judge to be substantial, it will not result in a re-ride option being awarded. In addition, the judge will use their discretion to evaluate whether the change in a bull's inertia, whether substantial or not directly contributed to the rider being bucked off or resulted in any other action that disqualified the rider. A rider who successfully overcomes an initial hiping foul at the gate and is bucked off after further attempting to ride the bull will not be awarded a re-ride.
 - 9.11.10.1.5.1. In the event that a bull "hips" himself (makes contact with the bucking chute or gate) and causes a re-ride option, that bull cannot be brought back for a re-ride attempt during that performance.
 - 9.11.10.1.6. **Bull Stumbles:** A judge may award a re-ride any time that a bull stumbles. If such action results in a clear, definitive and substantial change in the inertia of the bull's movement which directly leads to a buck-off or other action that disqualifies the rider. Judges will use their discretion to determine if the change in inertia was substantial by evaluating whether or not the bulls motion stopped completely and abruptly, and/or was followed by an immediate and unnatural change in the direction the bull was moving at the time the stumble occurred. If the change in the bull's inertia was not substantial, it will not result in a re-ride option being awarded. In addition, the judge will use their discretion to determine whether the change in the bull's inertia, whether substantial or not, directly contributed to the rider being bucked off, or resulted in any other action that disqualified the rider.
 - 9.11.10.1.7. **Bull Falls:** A judge will award a re-ride option any time that a bull falls, and the inertia of the bull's movement is completely ceased during an 8 second ride, provided that the rider has not been previously disqualified.
 - 9.11.10.1.7.1. In the event that a bull falls, that bull cannot be brought back for a re-ride attempt during that performance.
 - 9.11.10.1.7.2. If a bull falls in the arena during a PBR event, that bull cannot return to competition until inspected and cleared by a certified veterinarian. It is the

responsibility of the stock contractor to obtain such inspection and provide evidence of such to the PBR.

- 9.11.10.1.8. **Chute Fighting Bull:** A judge may award a re-ride any time that a bull's activity in the bucking chute impedes a rider's ability to call for the bull safely. The PBR judge, in his/her sole discretion will determine when and if a re-ride is awarded for a chute fighting bull.
- 9.11.10.2. **Inferior Bull Performance:** Re-rides for inferior bull performance will be awarded as follows:
 - 9.11.10.2.1. **Long Round Minimum Threshold for Bull Performance:** During any long (regular) round of competition, a re-ride option will be automatically awarded to a rider if any one judge scores the bull 19 or below. PBR, in its sole discretion, will have the option of designating, suspending, or otherwise changing such requirement during any round at any event, of any level of competition.
 - 9.11.10.2.2. **Short/Special Round Minimum Threshold for Bull Performance:** During any short (championship) round, any PBR 15-15 round, or any other round deemed by PBR to be a round of competition where bull performance is expected to be of a higher caliber than a long round, a re-ride option will be automatically awarded to a rider if any one judge scores the bull 19 or below.
 - 9.11.10.2.3. **Bull Stumbles Affecting Bull Score in a qualified ride:** A judge may award a re-ride any time that a bull stumbles if such action resulted in an inferior bull score, regardless of whether the score was below the minimum threshold of bull performance during any round of competition. The rider must maintain control in a qualified ride to receive a re-ride option.
 - 9.11.10.2.4. **Judge's Discretion for PBR Performance Expectations:** In addition to the above, a judge may award a re-ride at his/her discretion if they deem a bull to not be of sufficient PBR quality and caliber that it afforded a bull rider an equal opportunity to compete with other riders during any round at any event. Such circumstances shall include situations in which a bull is scored higher than the minimum score required but was deemed to buck in a style not consistent with the general expectations for the qualities of PBR bucking bulls.
- 9.11.10.3. **Equipment Failure:** A judge may award a re-ride if stock contractor equipment fails during any ride. Under no circumstance will a rider be awarded a re-ride if their own equipment fails during a ride. Circumstances in which a re-ride may be awarded for equipment failure include:
 - 9.11.10.3.1. **Flank Strap Failure:** A judge may award a re-ride if the flank strap falls off during any 8 second ride provided that the clock has not stopped, or the rider has not been disqualified prior to the flank strap falling off. The judge may use discretion to determine if an improperly secured flank strap that did not fall completely off led to inferior bull performance and may award a re-ride option in such circumstances.
 - 9.11.10.3.2. **Neck Ropes, Flank tails, Chute Spacer & other Foreign Objects:** A judge may award a re-ride if he/she determines that a neck rope, flank tail, chute spacer, or other foreign object interfered with a rider or otherwise contributed directly to a buck-off or disqualification.
- 9.11.10.4. **Judge Shall Inform Member of His Options:** If a re-ride is given, a judge shall inform the contestant of his score and an option of a re-ride.
 - 9.11.10.4.1. Member may refuse the re-ride and take the score.
 - 9.11.10.4.2. Member will be notified by the judge/chute boss of the re-ride bull available to them.
 - 9.11.10.4.3. Member must notify the judge/chute boss immediately upon notice of the re-ride bull of his decision to accept or reject the re-ride option by indicating verbally and with a physical "thumbs up" or "thumbs down" hand signal. If the rider leaves the arena before notifying a judge of his decision it will be considered as refusing the re-ride.
- 9.11.10.5. **Re-Ride Bulls.**
 - 9.11.10.5.1. PBR will determine, in its sole discretion, the list of available re-ride bulls for any round and any event.
 - 9.11.10.5.2. Bulls that are available due to member turnouts and doctor releases will become additional re-ride bulls and placed in the list of available re-ride bulls at the discretion of the PBR.
